Rahul Patil

Junior Software Engineer | Java | HTML/CSS | JavaScript | Eager to Grow

Pune District, Maharashtra, India

Summary

I'm Rahul, a passionate web and software developer with hands-on experience in PHP, MySQL, Java, HTML, CSS, and JavaScript. I enjoy building clean, scalable, and user-friendly applications that solve real-world problems.

I've developed live projects including a B2B/B2C marble trading platform and a custom admin management system, gaining practical experience in end-to-end development — from front-end design to back-end functionality.

My strengths lie in problem-solving, logical thinking, and adaptability, and I'm always eager to learn new technologies and improve my craft.

I'm open to opportunities in web development, software development, and backend engineering where I can contribute, grow, and deliver value.
